 - . teach and learn new skills
 - . demo your hardware or software
 - . nothing is too small or simple
- . meet people and exchange ideas
- . spaces to socialise and play games
- . car park and licensed bar

An Adventure in Technology will be a festival of free creativity for people from all technical spheres. We are hoping that visitors, both individuals and companies, will bring something of their own to show others, to play with, or turn up with nothing and create something on the day. Above all, we want people to just come along and enjoy the adventure.
